

Whole School Communication Night: Maths for Parents!

Thursday March 9, 2017.

5.30-6.30 pm (BBQ)

6.30-8.00 pm (Presentation)

Presenter: Michael Ymer.

Michael is a specialist mathematics consultant from Melbourne, Australia. He is involved in many Professional Development programs in schools across Australia and Asia.

Michael is an enthusiastic and entertaining presenter who has a clear and practical approach to the challenges that confront schools and parents in mathematics. On this evening Michael will address the following issues

- What is my child learning in mathematics?
- How can I help my child become an efficient problem solver?
- How do children best learn mathematics?
- How can parents promote quality thinking and learning?
- How can I help my child in mathematics?

I recommend this evening to all parents as a very worthwhile session that will help you understand the focus of mathematics in schools today and offer strategies and ideas to help you support your young mathematicians. A BBQ will be provided for families from 5.30-6.30pm. Students will be taken over to Building E (Prep building) to watch a movie during Michael's presentation and be supervised by staff.

We look forward to an entertaining and informative evening

Regards,

Sharon Reiss-Stone
(Principal)
